Past Competitions | MATHCOUNTS

Make sure the problems are original. The AoPS community does not want to waste time seeing a collection of boring, cliché problems that in principle are identical to an existing problem from a past MATHCOUNTS, with a few numbers modified. Add variety. Nobody wants to see a sprint round with 15 counting problems or 20 algebra problems.

If Jones catches up to the car in 4 minutes, how fast was the car moving?

Let the Competitions Begin! | MATHCOUNTS

The Sprint Round is a round that consists of 30 problems. You have 40 minutes to complete all of the problems. You are not allowed to use calculators, books, or other aids during the round. Calculations may be done on scratch paper. If you finish before time is called, use the remaining time to check your answers. Trivia Before 1990, there were 40 sprint round questions, and you had 40 minutes ...

Sprint Round | MathCounts Wikia | Fandom

MathCounts is a national middle school competitive math competition that gives out math achievement and similar. The first part of the competition is the Sprint Round, which consists of 30 problems (40 problems before 1990) to solve in 40 minutes. No calculators are allowed during this part of the test, and for your individual score, each question is worth one point.
