The issues range from business design to environmental concerns to macroeconomic dynamics. In response to this question, I can tell you from my personal experience, nothing beats seeing a skilled practitioner use our software tools and the Systems Thinking methodology to make sense out of a complex problem.

Modeling the Economic Crisis | Making Connections

Business Dynamics: System Thinking.
Question 1: (50 marks-500 words)
Although causal loop diagrams are wonderfully useful in many situations, they suffer from a number of limitations and can be easily abused. One of the most important limitations of causal diagrams is their inability to capture the stock and flow structure of systems.
