[MOBI] Cibse Guide B Heating

Air change rates - Designing Buildings Wiki - Share your construction industry knowledge. Air is continuously exchanged between buildings and their surroundings as a result of mechanical and passive ventilation and infiltration through the building envelope. The rate at which air is exchanged is an important property for the purposes of ventilation design and heat loss calculations and is ...

Air change rates - Designing Buildings Wiki

This Guide fills a significant gap in the range of CIBSE publications and is the first CIBSE publication to deal with electrical services in buildings since the 1986 edition of Guide B. This Guide will be invaluable for anyone thinking of installing new or renewable power sources. Energy managers, facilities managers and building owners/operators will also find this Guide a fund of essential and interesting information. Show less
