Epicor Project Management

I'm a bit confused as to what would have caused the the Burden Rates for lines 2, 3, and 4 to be half of the Labor Rate. We have Split Burden on our Resource Group. The user was not clocked in to another job during the same time. There was another user clocked into the same Resource, but not job, during Line 4, but that was all I could find. Any ideas?

Epicor ERP Project Management. Enterprise resource planning software gives manufacturers the ability to manage operations from top to bottom.ERP consists of agile functions and a central hub for data, providing end-to-end control over business performance.

Epicor ERP Project Management - Datix

Project Billing is generally Deferred Revenue by Default and you use the Project Revenue Recognition Program to move deferred revenue into revenue. Outside of projects, an individual invoice has a checkbox "Deferred" and when you check that box, the revenue goes to the Deferred Revenue G/L account instead of a Revenue Account.
