ford 1600 kent engine for sale | eBay

This Ford Kent crossflow 1,600cc engine was built in 2007 by BHP in Allentown, Pennsylvania and features 10.5:1 compression pistons, a Cortina 295 camshaft, and dry-sump oil pump. It was destined for the selling dealer's Caterham 7 autocrosser, which was traded for another car before the engine was finished.

No Reserve: Ford Kent Crossflow 1600 Engine for sale on ...

Ford made very few cam changes through the life of both the Kent and pre-crossflow motors. Apart from the earliest 997cc units, the same cam was used in all non-GT engines up to 1971 model year, when the uprated Kent engines were introduced and camshafts had wider lobes.

Tuning guides for Kent / X-Flow - Classic Ford

Ford 1600 crossflow 711 engine again for my escort. Kents are quite easy to tune to GT spec, which usually means the biggest capacity block, slightly bigger valves (usually taken care of with a performance head), GT cam free flow exhaust and twin choke Weber - you should see around 80-90bhp.

Kent Cams - Europes Leading Performance Camshaft Specialist

What cam does the 1700 x-flow have as supplied by Caterham in supersprint spec, I was led to believe that it was a Kent 234, is this correct? If so would a move to a 244 cam be beneficial, especially on the track, rather than the road (given the valves remaining as supersprint size), or would a fair amount of head work be needed before the cam upgrade became worthwhile?

If a camshaft change and carburettor rejetting are done at the same time, 145-140 BH and lots of torque are readily available. ...

Lotus / Ford Blocks

The first 1600cc Kent engine is sometimes called a "Cortina" because it was first used in the 1967 Ford Cortina. It is also called "crossflow" (or X-Flow) because this was the first member of the Kent family with a cross-flow cylinder head (earlier Kent engines had the intake sitting directly over the exhaust).
