### High Scope Preschool Quality Assessment

Because the PQA focuses on assessing the fundamental, research-supported elements of high program quality, it has the flexibility to be used in diverse early childhood settings. Options to meet your program needs: Infant-Toddler PQA; Preschool PQA-R; Family Child Care PQA; HighScope Curriculum and Quality Tool

### Program Quality Assessment - HighScope

HighScope's current preschool program quality assessment, known as the PQA, has been updated and revised for the 2019 school year. The revised version provides a comprehensive assessment of preschool classroom quality that offers useful information to inform program improvements, guide teacher training, and increase student outcomes.

### Preschool PQA-R - HighScope

A high-quality early childhood program sets children on the trajectory to future success. Our Program Quality Assessment (PQA) tool uses proven research to measure and improve classroom and program performance. We focus on supporting optimal child learning and development by helping programs build strong teacher-child interactions and engaging learning environments.

### Assessment - HighScope

This online workshop provides hands-on experience in observing, recording, and evaluating program quality using HighScope's Preschool Program Quality Assessment (PQA) instrument. The Program Quality Assessment (PQA) is used to evaluate all Great Start Readiness Program (GSRP) classrooms. Because it is critical that reliable and valid data is entered into each PQA, GSRP Early Childhood Specialists (ECS) must receive formal training in the tool.

### Preschool Program Quality Assessment (PQA) - HighScope

This crosswalk addresses how both the HighScope Preschool PQA and Pre-K CLASS are designed to assess the quality of early childhood programs and quality improvement goals. It also discusses the differences between both of these tools and what they look at in early childhood programs.
