Hoarseness can be caused in different ways. Often it is due to a problem with the vocal folds (a part of the larynx). The problem can stem directly from problems with the larynx, or instead, be due to problems with the nerves that supply the vocal folds and direct them to do what our brains are telling them to do.

### Causes and Treatment for a Croaky Hoarse Voice

Most hoarseness can be treated by simply resting the voice or modifying how the voice is used. If smoking is related to the hoarseness, you may be advised to stop smoking, as well as resting your voice. For all patients, it is recommended to avoid smoking or the exposure to second hand smoke and drink plenty of fluids.

### Hoarseness (Hoarse Voice) Causes & Treatment

It's been shown to be a level of debt that most borrowers can comfortably repay. That home payment assumes a 30-year mortgage at current rates, and includes 1% property tax and 0.4% for ...

Generally, horses shouldn't be turned out with halters on. However, during this retraining period, you may want to keep a leather crowned halter on your horse, even in the pasture. Horses can become entangled when trying to scratch an ear with a hindfoot or can hook a halter on a gate latch and get hung up.

When using 2,4-D on our pasture, how long until we can release the horses back out? Some have told me it will not hurt horses, while others say to wait seven days. 2,4-D alone does not have a grazing restriction for horses. However, you need to read your actual product label to see if additional precautions exist because of the formulation.
