approaches to child development; constructivist, social constructivist and behaviourist, and at the implications of these for teaching. The Constructivist theory of development pioneered by Jean Piaget (1964) suggests that a child's age determines the way in which they learn and develop. He states that children develop schemas based...

In Praise of the Cognitive Emotions.
Scheffler, Israel. Teachers College
Record, 79, 2, 171-86, Dec 77. The
author investigates the interrelatedness
of cognition and emotion, stressing that,
while emotion without cognition is blind,
cognition without emotion is vacuous.
