John Kenneth Galbraith The Affluent

The Affluent Society is a 1958 book by Harvard economist John Kenneth Galbraith. The book sought to clearly outline the manner in which the post-World War II United States was becoming wealthy in the private sector but remained poor in the public sector, lacking social and physical infrastructure, and perpetuating income disparities. The book sparked much public discussion at the time. It is also credited with popularizing the term "conventional wisdom". Many of the ideas presented were ...

The Affluent Society - Wikipedia

John Kenneth Galbraith was born in 1908 in Ontario, Canada. He earned a PhD at the University of California in 1934 and later took a fellowship at Cambridge, where he first encountered Keynesian economics. At different points in his life he taught at both Harvard and Princeton, and wrote more than forty books on an array of economic topics.

John Kenneth Galbraith (1908–2006) worked in the New Deal administration of Franklin Delano Roosevelt. Although he wrote later, and was more developed than the earlier institutional economists, Galbraith was critical of orthodox economics throughout the late twentieth century.

Institutional economics - Wikipedia

We should all, however, be able to acknowledge that the way we've been talking about the economy and about growth and jobs, is out of touch with our affluent economy. Galbraith paints a humorous picture of Americans so wealthy in personal goods (albeit not as wealthy as we could be if companies had better incentives to invest in R&D that yields truly innovative and useful products) and yet relatively impoverished in public ones, especially those provided locally.

Conventional wisdom has it that John Kenneth Galbraith's The Affluent Society spawned the neoliberalism we see in Bill Clinton, Tony Blair, and other world leaders. The economist's prose, lofty but still easily manageable, laid down the gauntlet for the post-cold war class struggle that was still far in the future in 1958.
