This year, I consulted three well-known Venice Beach astrologers, two reputed Chakra healers, and an old Ouija board to arrive at 10 healthcare industry predictions that have a 50/50 chance of ...

Top 10 Health Care Industry Predictions For The Year 2020

It's very common; over 60 million people in the U.S. have heartburn at least once every month. Heartburn pain usually results from stomach acids escaping from the stomach and irritating the esophagus above it. Luckily, there are medical drugs, called antacids, which can help relieve heartburn pain. But how do antacids work, and how effective ...
