Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

### Milk The Surprising Story Of

Yet the story of dairy is perhaps not quite so surprising as the title suggests--it's more or less the story of all industrialized food production through the last century, in which the flavor and quality of natural foods have been subjugated to dietary concerns, food safety and the sheer volume needed for mass consumption.
