Conceptual Physics - Prentice Hall Flashcards

General Conceptual Physics is a course designed to teach the important concepts in physics, such as motion, forces, work, machines, and energy. Later in the year, students will learn about waves, sound, light, electricity, and magnetism. The course is less math-intensive than the Physics course, but still covers all of the same topics.

It is common—but incorrect with physics types—to think that matter contains heat. Matter contains energy in several forms, but it does not contain heat. Heat is energy in transit, moving from a body of higher temperature to one of lower temperature. Once transferred, the energy ceases to be heat.21.2 In Chapter 9, we called the energy
