It can be used to record GPS data (longitude and latitude) and compass headings in photographs taken while it is connected to a G700SE. The GP-1 is not equipped with a battery or on/off switch. When the camera is turned on, power is supplied to the GP-1, the status lamp (c) turns green, and GPS data acquisition begins automatically.

### **Wireless, GPS, and Barcode Supported Digital Camera**

Despite its small size and light weight, the G700SE has strengthened glass at the lens front surface and body protectors added at strategic points. This toughness enabled it to withstand 2.0 m drops in 26 positions (6 surfaces, 8 corners, and 12 edges) in testing conforming to US Department of Defense "MIL Standard 810F."
