### Scaling Of Examination Marks

Scaling is the systematic adjustment of a set of marks for a module/assessment in order to ensure that they properly reflect the achievements of the students concerned as defined by the assessment criteria. Scaling is a process which may be employed, on an exceptional basis, to enable the mean mark for a given module to fall within expected ranges derived from:

### Code of Practice on Scaling Marks | Academic Quality ...

Scaling component marks (Results Two only) Scaling can be performed at an assessment component level prior to the Calculate Module Results process being initiated. Once scaling has been performed, the original mark is stored in the Unscaled mark field, and the revised mark is stored in Actual.

### Introduction How scaling is applied

Biggins, Loynes & Walker (1986) considered the problem of scaling and combining examination marks from several papers to obtain transformed marks and an overall measure of each candidate's performance in the examination. Their approach is to obtain the transformations and the overall marks by the minimization of a suitably chosen loss function subject to a single constraint. In the main ...

### Scaling and combining examination marks, British Journal ...

What is scaling? The scaling of HSC marks is the process of 'standardising' raw marks (remember, your HSC Mark is the average of HSC exam mark and moderated school assessment mark) provided by NESA and then estimating what these marks would have been if all courses had been studied by all students.

### ATAR & Scaling Part 2: Scaling of HSC Marks | Matrix Education

Scaling is the adjustment of marks for an entire cohort carried out at on an assessment item so that the marks better reflect the achievement of the students as defined by the University Mark Descriptors.

### 6.3.13 University Policy and Guidance on Scaling by Boards ...

Curving or Scaling grades is a way of standardizing the measure of performance from test to test and class to class. Its two purposes are to make the grades meaningful in a larger sense, and to be fair to students Addressing the latter point first...

### What's the point of scaling grades/marks? - Quora
