USA made, genuine APE manual camchain tensioner. They cannot back off like the oem type automatic tensioners. A must for any hard ridden standard or tuned machine. Beware of cheap copies! Easy to install. They often take up more slack than a standard tensioner, so can sometimes also stop chain noise.

## **APE Manual Camchain Tensioner-spare-parts-motorcycle-online-uk**

APE manual cam chain tensioners are designed to replace the automatic and hydraulic tensioners on high-performance engines. The automatic adjusters can back out when the throttle is closed suddenly at high rpm. This allows the cams to go momentarily out of time, and can result in bent valves and/or serious engine damage.

## **Compatible with Suzuki GSXR 600 750 1000 APE Manual Cam ...**

it boils down to how stretched out your cam chain is. the more slack the chain has, the easier it is for it to slip. even on a 92 CBR F2 that ive replaced one on, ive never had one slip and jump teeth. nor have i ever heard of anyone having that problem when changing the CCT themselves at home. although you are taking a risk by not pinning the chain to the cam gears, its a risk that is very slim.

## **Auto CCT Cam Chain Tensioner | Suzuki GSXR Forum**

The ThumperTalk Manual Cam Chain Tensioner (MCCT) is designed to replace the automatic and hydraulic tensioners found on today's hi-performance 4-stroke engines. Factory automatic adjusters can back out when the throttle is suddenly closed at higher rpms.

## **ThumperTalk Manual Cam Chain Tensioner**

The Auto Cam Chain Tensioner (ACCT) has had some failure issues over the different model years.. The current version (2003 and later model years) has not seen as many failures in DRZ's but has seen some failures in other Suzuki models, as well as similar designs in other brands of bikes and ATV..

I have 23k miles on mine when the tensioner broke in half allowing the cam chain to hop on the cam and wrecked the valve train. looks like it will cost 3 grand to have the bent valves repaired. I am pissed at Suzuki, they recommend having it checked, in order to do that you must split the engine case costing \$1900 to check a \$38 part.
