Crohn's disease | ulcerative colitis | ibd | Nutrition for ...

The SCD is based on the idea that microbes in the gut that contribute to ulcerative colitis use carbohydrates as an energy source leading to the production of toxins that damage the intestine. The SCD restricts all sugars except for monosaccharides (glucose, fructose, galactose).

Ulcerative Colitis Diets: The Essential Guide - CARA CARE

Ulcerative colitis occurs from an abnormal immune system. The proteins and cells that hold your immune system support your body from various infections. Nevertheless, when you have ulcerative colitis, your immune system messes up microscopic organisms, food, and anything else in your intestine as an invading matter.
